

# DOMUS NOVA

Villa Drome, San Rafael  
€4,450,000

Set in a lush valley, surrounded by olive groves and pine trees, there's a peaceful feel to this new-build villa for sale, due for completion in Spring 2025.

Nestled in a generous 23,000 square metre plot close to San Rafael and Santa Gertrudis, space and solitude are in plentiful supply at Villa Drome. Currently under construction, eco-credentials will be woven into the building's framework, creating a four-bedroom villa in tune with its natural surroundings.

Arranged across two floors, the building overlooks a scenic pool and pergola-covered terraces, ensuring an effortless interplay of inside-out living. Throughout, design touches are laid-back and elegant, bringing together a palette of natural tones and textures.

Divided into two distinct wings, one half of the villa's ground floor is dedicated to a convivial kitchen and living room. A statement double-sided fireplace creates connections between the two spaces, infusing both with a relaxed and inviting ambiance.

Anchored by a stone island, the kitchen will be finished to the highest standards – think integrated appliances, a large wine fridge and wooden cabinetry. Beyond, the adjoining living space is tied together with tactile stone floors and calming colours. It offers direct access to the terrace beyond.

The other wing is dedicated to a trio of bedrooms. Among them, the standout principal suite. Finished with tactile materials, a freestanding bathtub, double basins and a walk-in shower are integrated into the room, adding a touch of luxury. The other bedroom suites echo the same soothing, sumptuous style, while central air conditioning and underfloor heating elevate the living experience throughout.

The floor below presents an array of possibilities. At its heart, a vast 82-square-metre, multi-purpose room offers a functional space with a variety of configurations. Flooded with natural light from an overhead lightwell, it would make an impressive gym or sauna. Also on this floor, a separate guest bedroom suite and two technical rooms, the larger of which can be accessed from outside – ideal for maintenance work. Completing this floor, there's further potential for a self-contained apartment with its own entrance, offering additional flexibility and privacy.
